Procedure for Movement of Northern Ireland (NI) Cattle into and out of Local Agricultural Shows

Disease Control

Only animals free from disease restrictions, including Tuberculosis, Brucellosis and Bluetongue (herd or individual animal restrictions) may be permitted to move to a Show.

To minimise the risk to other livestock, exhibitors are encouraged to have Show animals tested for Tuberculosis by their Private Veterinary Practitioner in the 30 days beforehand.

The Compulsory Bovine Viral Diarrhoea Scheme (BVD).

Shows should put in place adequate bio-security measures to reduce the risk of transmission on the premises.

***Breeders need to send evidence in with entry form of negative tests**

For calves born on/after 01/03/2016, the show operator must have evidence that these ANIMALS have all been tested negative. It will be an offence for show operators to have in their possession, under their control (ie in Show herd number) or sold any animal that has moved to the show without a negative result. Results are held by AWHNI (Animal Health & Welfare Northern Ireland).

In respect of imported animals born on or after 1/3/2016, if a result from an approved laboratory has not already been provided by the vendor, the Bovine Viral Diarrhoea Scheme Order (Northern Ireland) 2017 requires a valid BVD test to be completed within 20 days of the date of importation.

Identification

All cattle must be properly identified and comply with the Cattle Identification Regulations.

General Principles

Cattle going to a Show(s) must be accompanied by a fully completed MC2 document identifying the Show premises as the destination.

Cattle moving from a Show must return to the herd they came from.

The number of Shows to which cattle may travel is not limited provided these conditions are met on all occasions.

Movements to or from a Show

Movements to a Show

Pre-movement testing for Bovine Brucellosis is no longer required for movement to shows.

On arrival at the Show, the cattle must be accompanied by a fully completed MC2 document.

The top 3 copies (MC2A-White, MC2B-Yellow and MC2C-Pink) must be brought to the Show. All 3 copies will be checked by a Show Representative and stamped with the Show stamp.

The MC2A (white) will be retained by the Show Operative.

Movements from a Show (including Show Operator's Responsibilities)

1. Where the exhibitor has their Sticker Book with them the Show will issue a movement out MC2 endorsed with the herd number of the exhibitor and the serial number of the 'move in' MC2. The MC2A (White) and MC2B(Yellow) 'move out' copies should be stapled to the Yellow 'move in' copy and have a yellow confirmation sticker applied. This must then be sent by the Show Operatives to be received at the local DARD office at the latest by the next working day. The MC2C (Pink) 'move out' copy should be stapled to the Pink 'move in' copy and have the corresponding pink sticker applied. This must be given to the herd keeper for his/her own records (see Annex A).
2. Where the exhibitor does not have their sticker book with them the Show will issue a 'move out' MC2 with ALL details completed (including animal details). The move out MC2A (White) copy with the move in MC2B (yellow copy) must be sent to the local DARD office at the latest by the next working day and the move out MC2B (Yellow) and MC2C (Pink) copies with the move in MC2C (pink) copy must be given to the exhibitor. The herd keeper must return the MC2B, with a yellow sticker attached and must be received by his/her local DARD office within **7 days** (to avoid an NMN status) and the MC2C, with corresponding pink sticker attached, must be kept for his/her records (see Annex B).

ON SHOW DAY:

Permits are presented checked and collected when exhibitor numbers are picked up at secretary's office in cattle lawns. No cattle can be off loaded or shown without exhibit numbers being in place.
